

Training Equipment Readiness Checklist

Prepare your devices for the return to peak training operations.

Complete these checks before training activity returns to peak levels.

Equipment Inspection

- ☐ Inspect flooring
- ☐ Inspect seating & handrails
- ☐ Test overhead stowage bins
- ☐ Inspect windows and panels
- ☐ Check safety signage

Doors & Emergency Systems

- ☐ Test all training doors
- ☐ Check hinges and handles
- ☐ Verify locking mechanisms
- ☐ Inspect emergency exits
- ☐ Test door assist systems (if fitted)

Mechanical & Electrical

- ☐ Test cabin lighting
- ☐ Check PA/interphone systems
- ☐ Verify instructor controls
- ☐ Test moving components
- ☐ Check integrated training systems

Maintenance Records

- ☐ Review maintenance logs
- ☐ Check for recurring faults
- ☐ Confirm servicing is up to date
- ☐ Update inspection records
- ☐ Log any new issues

Spare Parts

- ☐ Check spare parts stock
- ☐ Replace low stock items
- ☐ Review supplier lead times
- ☐ Check maintenance consumables

Planning

- ☐ Schedule planned servicing
- ☐ Plan refurbishment work
- ☐ Prioritise outstanding repairs
- ☐ Confirm equipment readiness

Final Check

- ☐ All issues addressed.
- ☐ Equipment ready for training.

Need Technical Support?

If your inspection identifies any issues, Spatial's team can support with maintenance, refurbishment and technical advice.

DISCLAIMER: This checklist is intended as general guidance and should be used alongside your organisation's maintenance procedures and manufacturer recommendations.
